

Post:

1. Take the posts out of the box and open out the legs.
2. Position them at a distance of approx. 1.2 m apart.

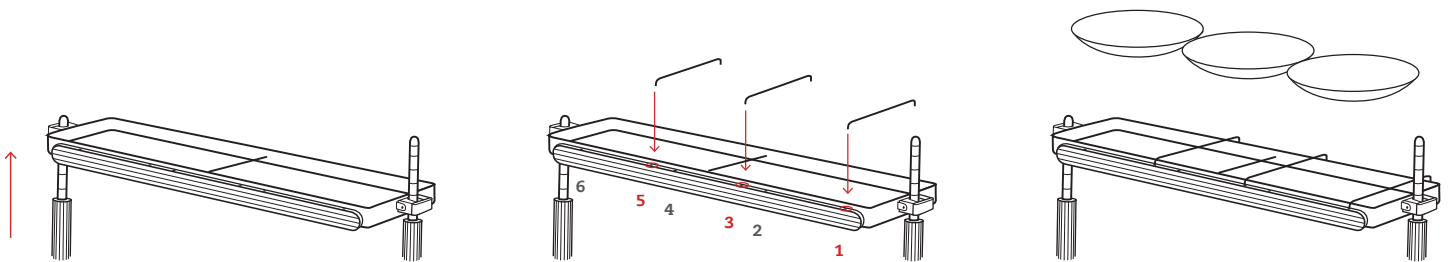

Wing:

Now fit the wings inbetween the posts at the desired height:

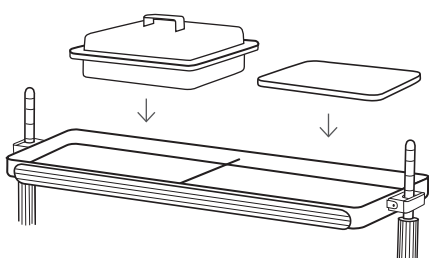

Glass dishes:

1. For the “glass stairs”, attach the wing at a tilt.
2. Fit 3 bars into the 1st, 3rd and 5th pair of holes, beginning from the bottom end.
3. Place the glass bowls onto.

Chafing dishes / table boards:

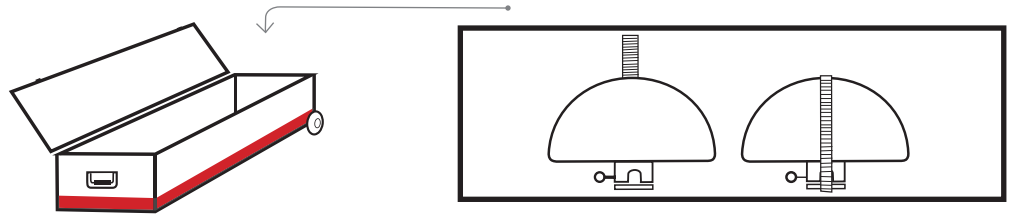

1. Attach the wing horizontally.
2. Fit in chafing dishes (without frame) into the wing / place table boards onto the wing.
3. Heaters of the chafing dishes are attached directly at the water pan.
